DOCTISSIMIS

ET

DIGNISSIMIS MAGNÆ

Britanniæ Ludimagistris, vel Protodidascalis, vel Hypodidascalis

Salutem.

P. D.

OMnia ex materia & forma tanquam ex duabus principiis naturalibus consistere, vobis (eruditi magnæ Britanniæ Ludimagistri) non est incognitum. Cum itaque *Comenius* primam huius Portæ linguarum materiam & fundamenta posuisset & subministrâsset; *Anchoranus* videns eam tum in *Norwegia*, *Swedia*, & *Dania* benè fuisse approbatam, à Borealibus illis & glacie constrictis plagis, ad nostram magis Australem mundi partem attulit, vbi cum fauore

favore hominum novum calorem recipere incepit, operæ pretium visum est *Anchoranæ* eam huic Regno accommodare, & trilinguem, nempè Latinè, Anglicè, & Gallicè loquentem, in studiosorum omnium, maximè verò in principis celsitudinis gratiam feciſſe. Quæ cum primum in lucem prodibat, à celeberrimis nostri ævi Ludimagistris laudata fuit, vtpote quòd magnam indè in studiis ſuis promovendis vtilitatem, huius Regni juvenes & linguarum cupidi perciperent. Jam verò omnibus illam avidè & comiter amplectantibus, hoc mihi onus Bibliopola impoſuit, vt clavem huic Portæ accommodam fabricarem, quam jam tandem efformavi & effinxi, & hic omnibus Ludimagiſtris & eorum diſcipulis veluti minutam benevolentiæ meæ erga illos teſſeram dido & dedico, cuius ope hanc Portam linguarum verborum cardinibus expeditè verſatilem, promptè reſerare poſſint, & in eorum vſum ita comparavi, vt hæc clavis huic Portæ affixa & appenſa eſſe queat, quanquam Bibliopola maius indè lucri acquireret, ſi ſeorſim edidiſſet, niſi publicam vtilitatem privato ſuo commodo præponderare exiſtimavit. Ita tamen eam efformavi vt omnibus commodiſſi-

ma

ma esse queat, quam si favore aliquo in manus vestras accipere non dedignemini, proximâ editione hanc Portam, Latino, Anglicano, & Gallico sermone puriorem & limatiorem prodituram, & errata quæ irrepserint emendata fore expectetis. Quæ quoniam linguæ tam diversæ erant in prima & secunda editione, tam exactè perfici non potuerunt. Itaque Discipulus hac meâ impolitâ clave fruatur & vtatur, quam (Deo volente) in proximam editionem magis effabrè super incude cudam. Interea hos suos qualescunque conatus in hoc Indice Alphabetico colligendo ad judicium doctissimorum huius Regni Didascalorum remittit & relinquit.

Vestrum observantissimus
WYE SALTONSTALL.

DIS-

DISSIPVLIS ET LINGVARVM STVDIOSIS DE VSV huius Clavis siue Indicis in eorum gratiam collecti.

PRÆFATIVNCVLA.

VNico juventutis commoda promovendi desiderio permotus, & vt Bibliopolæ desiderio satisfacerem, qui illud munus subire voluit, (Discipuli & Linguarum studiosi) omnes Portæ linguarum voces Anglicanas hinc inde spársas in Indicem Alphabeticum collegi, quem [illegible], & per similitudinem clavem nominavi, nam vt ostium clavis ope reserabile est, ita per hunc indicem Porta Linguarum facillimè reserari possit, nam primum omnia vocabula in vnam quasi vndem molem & fasciculum colligebam, tum ordine Alphabetico distinxi & omni vocabulo numerum periodi sub quo comprehenditur affixi, vt vos Pueri & Tyrones qui introitum in hanc Portam desideretis, vnumquodque verbum proprio suo periodo tantis. Si itaque voce aliquâ latinâ, quæ ex memoria vestra elapsa est, indigeatis, Index à vobis consulendus

dendus est, vbi anglicanum vocabulum inuenies cum suis numeris signatum, qui te quasi per χειραγωγίαν, & manuductionem ducent ad illum titulum & periodum in quibus locatur, & ex adverso vocem quam queris Latinam & Gallicam intueris. Non est igitur dubitandum quin hunc indicem iure titulum clavis tueri posse, quia illius vicem, & vsum præstet, & Discipulos per hanc Portam in amœnissimos linguarum hortus intromittit. Bibliopolæ quidem (Discipuli) grates non immerito reddere debetis, qui me clavem hanc sive indicem verbis locupletem & refertissimum colligere vos luit, cuius sumptibus & vocabulorum selectari opera hæc clavis vobis ad manus fabricatur. Favete itaque & Valete.

DE HVIVS PORTÆ LINGVARVM PRIMA structura ab eiusdem initio repetita.

Historiam Portæ linguarum ab origine pandam
Condita non fuerat Roma nec illa die:
Fundamenta verè posuit Comenius *olim*
Materiam vocibus connubióque dabat.
Flumina verborum pleno de pectore manant

Anglica linguarum, Gallica Porta patet.
Tempore præcurrit Comenius, *unde secutus*
Est Anchoranus, *laudibus ambo pares.*
Nulla fides fronti, sed nunc in fronte libelli
Authorum Encomijs est adhibenda fides.
Laus summa est laudari illis, qui laude coruscant
Authorum laudes nomina magna sonant.
